

SERIES LF, LIQUID FILTER HOUSINGS

ESG Series LF Liquid Filter Housings are designed to remove solid particles from the liquid stream. ESG Series LF Liquid Filters are typically used in a variety of liquid applications, including rich and lean amine, glycol, injection and disposal water. Available with a wide range of element options, in micron ranges from 0.1 to 200 micron and a variety of orientations. The Series LF Housings can be used in most liquid services. Contact your local technical sales rep to discuss your particular application.

SPECIFICATIONS:

Orientation:	Vertical standard (Horizontal optional)
Inlet/Outlet Sizes:	1" to 8" standard (Larger available upon request)
ANSI Ratings:	150# - 900# or higher
Service:	Sweet or Sour
Materials:	Carbon Steel or SS
MDMT:	-20°F
Design Temperature:	Dependent on elements and internals selected
Closure:	Swing Bolt Standard

OPTIONS:

- 304 or 316 Stainless Steel housing or element posts.
- Low temp materials.
- Several Quick Opening Closure designs are available.
- All flanged construction.
- Special linings available.

HOW TO SPECIFY A MODEL:

EALF-S-03-08-01-U

ANSI RATING

A = 150#
B = 300#
C = 600#
D = 900#

SERVICE

S = Sweet
SS = Sour

INLET/OUTLET (in)
